Test Specification

0.1

Modular Base Specification
Effective November 21, 2025

Author: Jeff Andersen

Current Template Version:

3 Layer (Base, Design and Product) Specification Template V1.6.0

Table of Contents

1 Acknowledgements	6
2 Compliance with OCP Tenets	7
2.1 Openness	7
2.2 Efficiency	7
2.3 Impact	7
2.4 Scale	7
2.5 Sustainability	7
3 Base specification	8
Appendices	12
A First appendix	12
B Second appendix	13
References	14

List of Figures

1	Example diagram	8
2	Startup Sequence	9
3	Flowchart	9
4	Startup Sequence (UML)	10
5	Included UML	10

List of Tables

1	Example table	8
---	---------------------	---

1 Acknowledgements

We wish to acknowledge Chris Fenner (Google) and the Trusted Computing Group for the use of their Pandoc markdown tooling.

2 Compliance with OCP Tenets

2.1 Openness

This specification is open.

2.2 Efficiency

This specification is efficient.

2.3 Impact

This specification is impactful.

2.4 Scale

This specification is scalable.

2.5 Sustainability

This specification is sustainable.

3 Base specification

This is a dummy base specification, rendered via TCG Pandoc [\[1\]](#) tooling. Figure 1 is an example diagram.

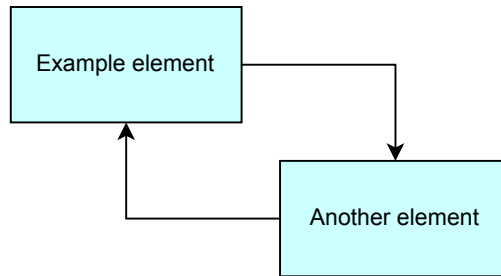

Figure 1: Example diagram

Table 1 is an example table.

Table 1: Example table

First col	Second col
One	Three
Two	Four

Figure 2 and Figure 3 are example Mermaid diagrams.

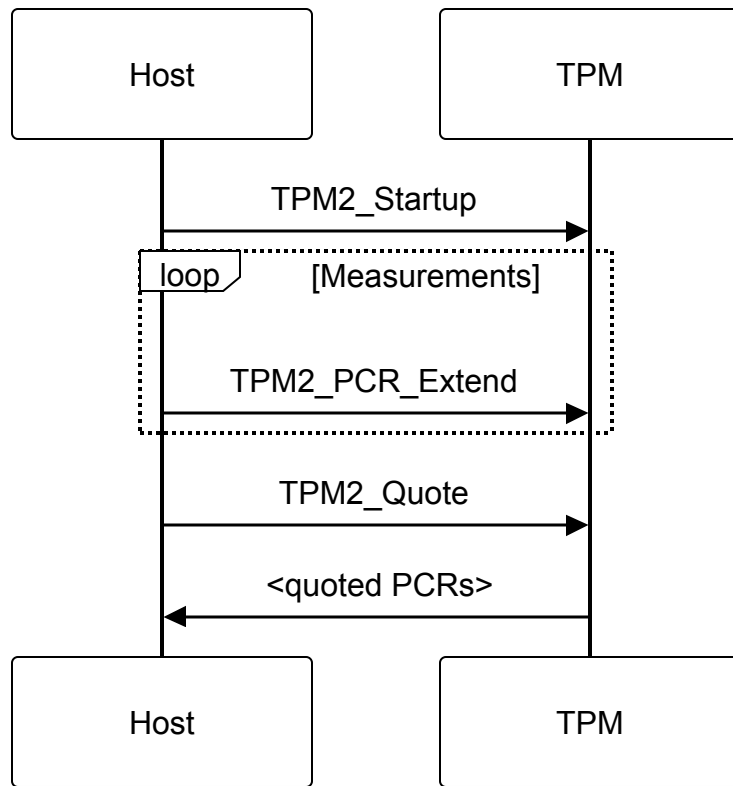

Figure 2: Startup Sequence

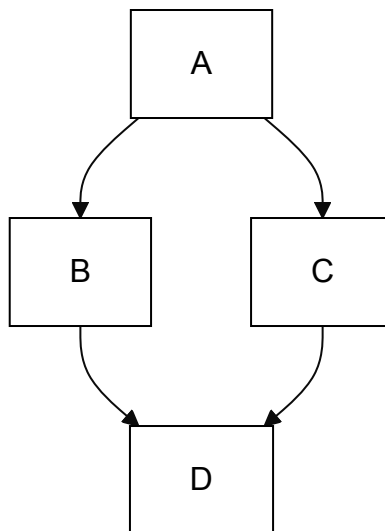

Figure 3: Flowchart

Figure 4 and Figure 5 are example UML diagrams.

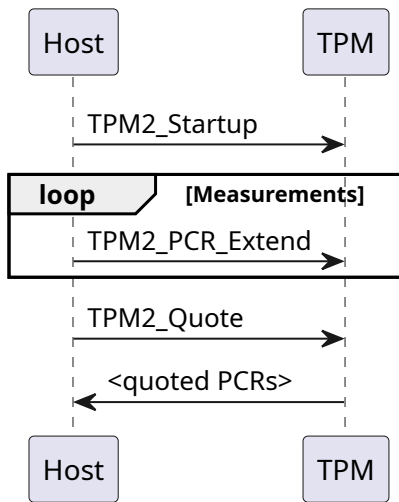

Figure 4: Startup Sequence (UML)

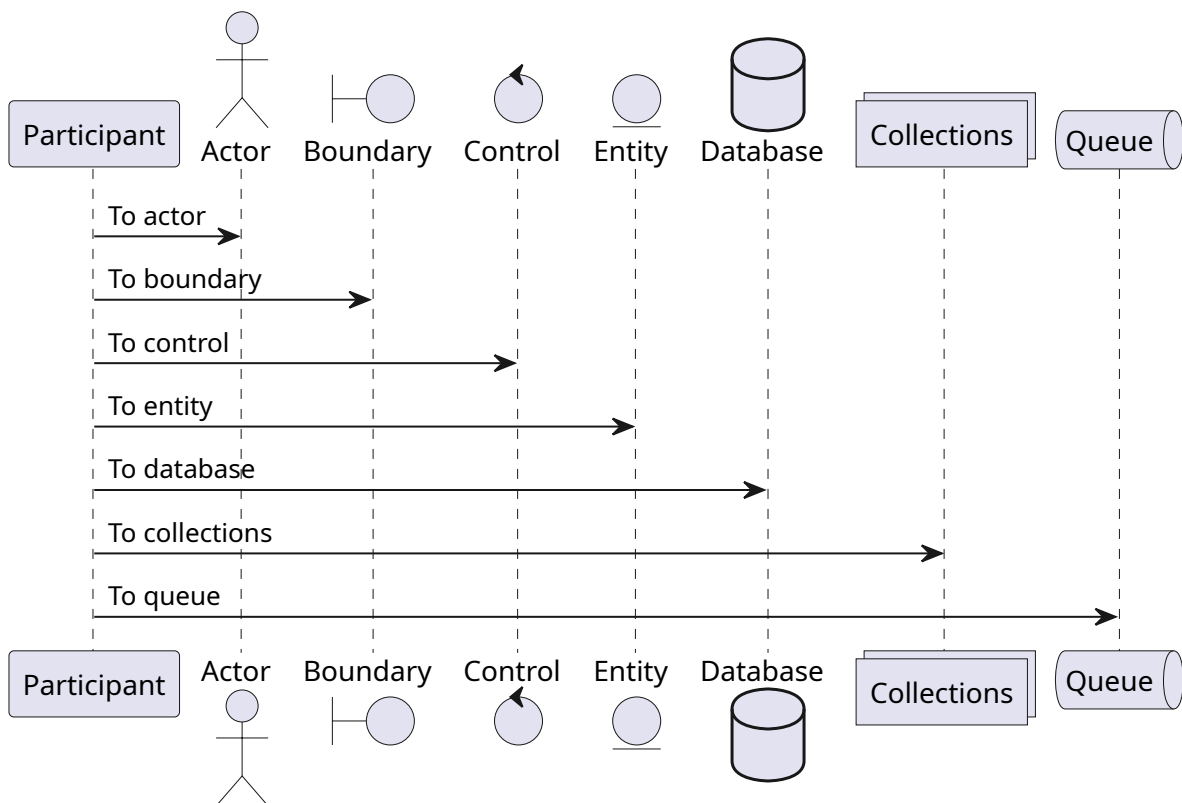

Figure 5: Included UML

You can use triple backticks to create blocks of code, and can specify the language, for syntax highlighting:

```
```c
// Comment
int i = 8472;
```

The result looks like this:

```
// Comment
int i = 8472;
```

## **Appendix A: First appendix**

This is the first appendix.

## **Appendix B: Second appendix**

This is the second appendix.
